Skills

Vue, React, Flask, Bootstrap, RESTful APIs, Product Development,
Python, JavaScript, HTML/CSS, NLP

Experience
Self-Employed @ Flax & Jottr
Dec 2020 - Current
- Developed a full-stack web application named _Flax.
- Built on a Flask back end with a Vue front end, Flax allows
  users to anonymously retrieve twitter data and analyze tweet
  sentiment using NTLK3's VADER to be downloaded and/or fed
  into an ETL pipeline.
- Database in PostgreSQL with ORM handled by SQLAlchemy and
  Marshmallow.
- Deployed on Heroku at https://flax-app.herokuapp.com/app
- Developed a Chrome/Firefox addon written in Vanilla
  JavaScript and leveraging Browser API, named Jottr.
- Facilitates smooth workflows by providing autosave
  functionality while living in the User's toolbar, reducing
  the need for anyone who frequently works in the browser to
  alt tab between sources of information.

IT Generalist @ Tech Helpers
Sep 2021 - Dec 2021
- Supported 700+ configurations spanning 500+ end users across
  16 clients alongside a small team of techs using the
  ConnectWise platform.
- Interfaced regularly with users to troubleshoot tech-related
  problems including cloud administration, Office 365, AD,
  deploying machines and basic networking problems such as DNS
  issues.
- Assisted in implementing standardization across internal
  documentation, improving accessibility of information and
  streamlining workflow.

Founder @ 303 CBD

Sep 2017 - Mar 2020

- Designed and built manufacturing equipment for processing small batches of raw CBD in the capacity of 1kg/day.
- Manufactured and distributed several CBD products in Colorado and Texas under a wholly owned brand, "Exhempt".
- Developed branding, web presence via custom ecommerce site and implemented KPI tracking to improve bounce rate on company website by 50% over 2-year period.
- Fostered strong relationships with suppliers and customers in both B2B and B2C capacities and engaged in some light consulting to other firms in the hemp industry, primarily in the realm of manufacturing.
